

## Go Green!

## Save Green!

### Switch from paper to electronic delivery to go green and save money!

- Go** ■ There is a growing trend to "go paperless" that is driven largely by environmental consciousness and the security of delivering confidential information electronically. In fact, electronic delivery (e-Delivery) is fast becoming the preferred method of accessing account information worldwide, as consumers are opting to forego paper for a more convenient, electronic alternative.
- Save** ■ Rising costs related to creating and mailing brokerage account statements and trade confirmations have made it necessary for many companies to implement a surcharge for documents delivered via regular mail. Legend will implement a surcharge of \$1.00 each for paper statements and trade confirmations on June 1, 2011. To avoid this charge, register to go paperless and choose electronic delivery.

**Choose to Go Green today!**

**Follow the instructions on the reverse side to set-up e-Delivery for your accounts.**

Securities offered through Legend Equities Corporation, member FINRA/SIPC  
Pershing LLC is not an affiliate of Legend Equities Corporation
